

An overview of our current financial situation*

Weekly Income = £2,114

Weekly Outgoings = £2,268

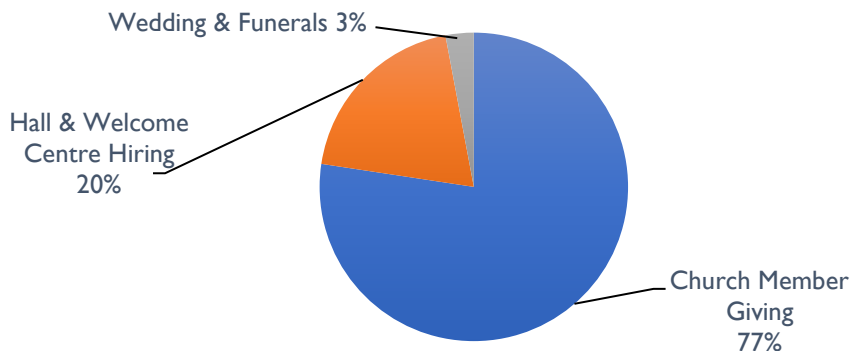

We have a weekly shortfall of £154 this amounts to a yearly shortfall of **over £8,000**

As you can see above we have more money going out than we have coming in. It costs £2268 a week to cover our current outgoings. While some of this comes from hiring of our facilities to fully cover this cost through our giving each adult would need to give **£14 a week**. We do not all have the same amount of income so the amount we give will differ but this gives you a realistic picture. For our church to grow we need to pray and give generously.

**£14
a week**

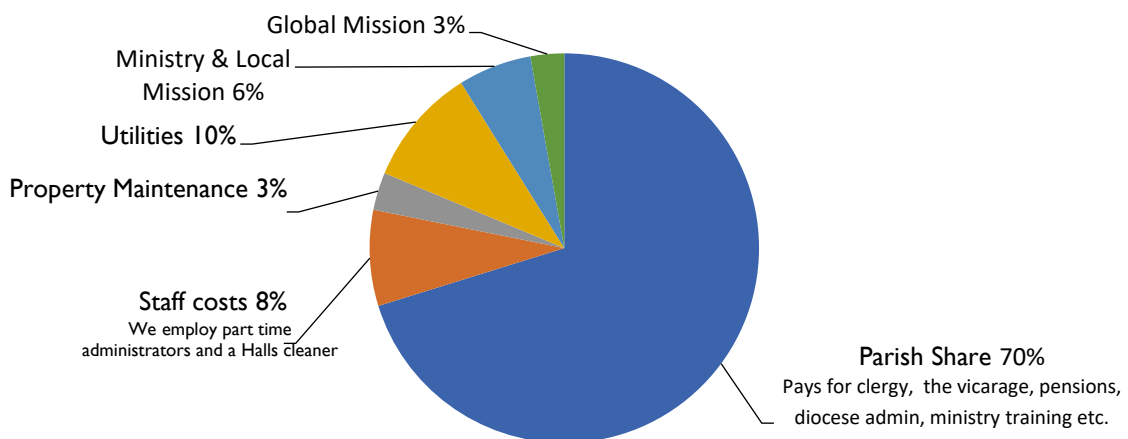

St Andrew's Church Income

Where does the money come from?

St Andrew's Church Outgoings

Where does the money get spent?
